SUBSCRIBERS are earnestly re-
quested to observe the date
printed on their address slips,
which will keep them at all
times posted as to the date
of the expiration of their sub-
scription. Prompt and timely
attention to this request will
save all parties a great deal of
annoyance.

Time For Action.

It is to the credit of our gov-
ernment that so far, enemy
aliens have been most leniently
dealt with, even when those
aliens have given indubitable
evidence that they sought to do
the country harm. No drastic
action has been taken against
even the worst offenders, but
one and all have been humanely
dealt with. Internment for the
duration of the war has been
about the most severe penalty
yet inflicted.

It does seem that considera-
tion should and would beget
consideration, yet instances are
multiplying that it does not so
work. While enjoying almost
perfect immunity from harm,
themselves, these enemy aliens
seem bent on wreaking as much
harm as possible on the country
that has spared and protected them.

All of this is now having its
logical effect. With greater
frequency now come reports of
mob violence against the coun-
try's enemies. The anger of the
people is becoming aroused and
they are taking the law into
their own hands.

This is to be deplored, but
there is only one way to prevent
it. That is for this government
to recognize sedition wherever it
rears its ugly head, and crush it
with an iron hand.

The day is past when any
man in America can occupy
middle or neutral ground. Every
man, woman and child in the
country must be classed under
one of two heads—friends or
enemies. There is absolutely
no other ground to stand upon.
I am either for or against my
government. You are either
for or against your country.

It would seem that German
sympathizers in this country
would be more careful of their
own safety than to uselessly
arouse the anger of the entire
nation. They must surely know
that all their outrages can have
but one result—Creating a hatred
and loathing for them and their
kind. Surely they can not im-
agine that their efforts will count
for anything in the final result.
This being the case, the people
appraise their action at its true
value—unreasoning loyalty to a
country they have deserted and
unreasoning hostility and
treachery to a country and a
people that have taken them in
and protected them.

The government should force
every man's hand. Every man
should be compelled to lay his
cards on the table—come clean—
or take the consequences.

The apportionment of the
Third Liberty Loan for Wise
County is \$248,900 and for Lee
County \$100,000.

The desperate German drive
on the western front had one
effect that will not give any
satisfaction to Germany. It has
resulted in the United States
speeding up preparation, and
troops are to be rushed to France
as fast as the combined transpor-
tation facilities of both the
United States and Great Britain
can put them across. As they
arrive on the other side they
will be absorbed into the ar-
mies of the Allies, and what
they may lack in the training
will be rubbed into them in
short order. This will prove of
benefit to the troops themselves
as well as materially strength-
ening the allied front. With
the help of Great Britain we
should be able to make our
power felt at the front very
soon now. And surely there is
need of the help our troops can
give. America will watch with
feverish interest the transport-
ing of our troops, and hail the
day when we shall have sent
enough to turn the tide of battle
into an allied victory.

Preparations should now be
making in every department of
American life for the coming
fall fairs, both state and local.
It is true the country is under a
great strain because of war and
conditions, but even with this
condition we can by no means
afford to weaken in our efforts
toward the very best obtainable
in every line of industry. Con-
stant improvement has for many
years been the American farm-
ers watchword and the great up-
standing agency wherewith this
ambition has been driven for-
ward has been the state and
county fairs. Competition,
recognition and wide publicity
will inevitably result in im-
provement where improvement
is humanly possible. Don't re-
lax your efforts towards a bigger
and better fair this fall. It will
return more for the investment
than any other undertaking you
can engage in.

Infant Dies.

Elizabethton, Tenn., April 17.
—A telegram today from Mr.
and Mrs. E. C. Jarmar to rela-
tives in Elizabethton announced
the death of their baby in
Stonegap, Va., and that the fam-
ily with the body would arrive
in Elizabethton tomorrow,
where the funeral will be held.
Mrs. Jarmar is the daughter of
the late W. E. Hunter.

Your War Garden

must do its bit this year in a big way.
Because the Allies, and our boys
"over there," need the production
from the big farms—need all that we
can send them. Your war garden
must be planted so that there will be
no guess work about results. It must
be planted economically and effi-
ciently. It must be a better garden
than ever before.

Pakro Seedtime will help you to have a
better, a more efficient garden. It is the
scientific way of planting. The seeds are
fresh and accurately selected in this paper
tape. And a whole row is planted at a time
resulting in straight rows of evenly spaced
plants. Thinning out is practically eliminated.
Pakro loose seeds are the same Quality Seeds
that are in the tape. These seeds are thor-
oughly tested and selected from the very
best stock. A Pakro Garden, either Pakro
Seedtime or Pakro Loose Seeds, is a success-
ful garden. Your dealer has over 115
varieties of Pakro Seedtime and Seeds.
Order your seeds today.

Quality in Groceries

Our constant effort is directed toward securing
Groceries that shall possess that subtle something
that for want of a better term we call QUALITY.

Food may be perfectly pure, wholesome and
healthful, and still not possess that peculiar dis-
tinction that sets it in a class by itself for Quality.

Your appetite maybe cultivated till it asks and
demands the best, or it may be depraved till "any
old thing" will answer.

If you would be known as a person of discrimi-
nating taste in eating, come to the store that culti-
vates that taste.

Bombing the Boche

Thrilling, Stirring, First-hand Story by
Bomber McGinnis

Bomber McGinnis is one of the Famous Canadian 2nd Bat-
talion. He is an American boy who heard the call when he
was in Boston. He went to Canada, enlisted, and trained in
England. He will tell you in his own words "how we bomb
the Boche"; about hand-to-hand fighting in "No Man's
Land," German gas attacks, bayonet fighting, trench raids,
etc. Hear how the first tanks went into action on the Somme.
Hear how he lost his left leg while out bombing the Huns.
